TEACHER & STAFF SURVEY

An online survey was distributed to all teachers and staff. Similar to the Principal survey, the questions focused on the existing functionality of the facilities. First, they were asked to rate, on a scale of 1 to 5, the organization of the campus and its ability to support the current enrollment. Then, the questions asked them to rate the functionality of:

- General Education Classrooms
- Student Services and Counseling spaces
- Staff and Administrative spaces
- Food Service spaces
- Shared student spaces (Library, assembly, social spaces)
- Physical Education / Athletics spaces
- Special Education spaces
- Specialized Project / Maker spaces
- the Site (parking, drop-off, playfields, restrooms, etc.)

The raking scale was a selection of one of the following five categories:

1. Needs to be Replaced with New Construction
2. Needs to be Expanded
3. Large Enough, but Needs to be Reconfigured
4. Functions Well, but Needs an Update of Finishes
5. Excellent!

After each space ranking, teachers and staff were asked to write-in a recommendation to improve the space in question.

Two concluding questions asked them to select their top 3 priorities, the first regarding existing spaces and the second regarding desired new spaces.

1,517 total responses were submitted. See the following pages for the results.
